NO PROGRESS MADE

Pearl Bryan's Head Has Not Yet Been Discovered.

ALL CLEWS FOLLOWED UP.

The Canal Drained, but Nothing Rewarded the Search—Jackson Determined Not to Make a Truthful Confession—Wood Is Just as Obstinate—The Requisition Papers Have Been Issued.

CINCINNATI, Feb. 15.—The head of Pearl Bryan has not yet been found, although every possible clew has been followed up. The draining of the canal has been completed and the bed of the stream thoroughly searched, but nothing of the missing head was discovered.

The authorities received a letter yesterday from Greencastle, Ind., in which the parents of Pearl Bryan identify the hat sent to them as that belonging to Pearl. This makes the finding of the hat the most important clew of any and everything will be made subservient to following it. The argument now accepted is that the murdered girl was assaulted near the spot with the improvised shotgun made of the handkerchief identified by Walling as Jackson's and the heavy bowler tied in it. It would appear the assault occurred near the spot and the girl, after being beaten insensible, was afterward decapitated.

The fact that Jackson has thoroughly and positively determined not to add anything to what he has already said nor give any additional information regarding the crime, though there is not the slightest doubt in the public mind that he has not given out all the information in his possession regarding the terrible crime, was established when it became known that an offer of \$500 cash and the payment of the fees for the best criminal attorneys in Hamilton county had been made him if he would tell the whole story. When this position was suggested Jackson halted and faltered for a few moments, scratched his head and meditated, but finally answered with emphasis by the following utterance: "I can not tell anything more."

William Wood, who is still in jail, is evidently more strictly observing the injunctions of his lawyers not to talk and have absolutely nothing to say to visitors than either of the other prisoners. He greets the newspaper men with courtesy and politeness, but refuses to say anything relative to the merits of the case. The Rev. D. M. Wood, the father of the young man, is doing all a father can to establish the truth regarding his son's actions which have a bearing on the proceedings of the case.

Lynching Expected.

WASHINGTON, Feb. 15.—"I expect to hear of a lynching bee in my district," said Congressman Berry of Newport, Ky. "I presume Jackson and Walling, the Cincinnati men, charged with Pearl Bryan's murder, will be taken over into my state, and the boys will get together with a rope and string them up. Public feeling in Kentucky is very much wrought up over the murder, and people in my state have no patience with such atrocious crimes."

Mr. Berry made the above statement in Secretary Carlisle's office, and created something of a sensation.

Requisition Papers Granted.

LOUISVILLE, Feb. 15.—Sheriff Plummer of Newport, Ky., last night secured from Governor Bradley requisition papers for Scott Jackson and Alonzo Walling, the prisoners held at Cincinnati for the murder of Pearl Bryan, and started immediately for Columbus to present them to Governor Bushnell.

LAST SAD RITES.

Funeral Ceremonies Over the Remains of the Late Congressman Crain.

CUERO, Tex., Feb. 15.—The remains of the late Congressman William Henry Crain was buried yesterday. Two thousand people followed his body to the grave, people coming from every section of the state. Every place of business in town was closed and on every door knob there hung a bit of crape. Governor Culberson was present and acted as one of the honorary pallbearers with the members of congress who escorted the body from Washington.

The ceremonies were of the utmost simplicity. Requiem high mass was sung in the presence of Bishop Forest and assemblage, which was limited only by the capacity of the church. At the grave there was no ceremony save that of the blessing of the grave, which was done by Bishop Forest.

More floral designs than could be placed on the casket were offered. Among the most elaborate was a large wreath of immortelles with "Our Father" worked in blue from the National Association of Letter Carriers.

G. A. R. Tickets Extended.

MINNEAPOLIS, Feb. 15.—The Minneapolis and St. Louis railroad yesterday announced that it would make as long a time limit on the tickets for the G. A. R. encampment at St. Paul as any other road coming into the Twin Cities. This makes three roads that have agreed to 30 day limit and it meets the requirements of the commander-in-chief of the Grand Army. The other roads are the Wisconsin Central and Chicago-Great Western.

Hardware Concern Closed.

HUTCHINSON, Kan., Feb. 15.—The Hutchinson Hardware company, one of the largest concerns of its kind in central Kansas, was closed by mortgage yesterday. Liabilities, \$21,000; assets, \$45,000.

DUN'S REVIEW OF TRADE.

The Weather Hinders Business, but Confidence Is Increasing.

NEW YORK, Feb. 15.—R. G. Dun & Company's weekly review of trade says: The weather still hinders business and continued closeness of money, and prolonged inaction of congress, but confidence increases.

The production of pig iron 198,599 tons weekly, Feb. 1, is 4.8 per cent less than Jan. 1, and 8.5 per cent less than Nov. 1, while the unsold stocks increased 63,188 tons in January, showing an output much exceeding the present demand, and moreover the larger stocks than for a long time are carried by the great steel works. Pig iron at the east and at Chicago, has not advanced, southern competition continuing at prices so low that several Alabama furnaces have stopped, but Bessemer is a shade lower at Pittsburgh. The demand for plates, sheets and wire nails continues fairly good, and there are more orders for railroad cars and bar iron at Chicago, but no further sales of rails appear, and the demand for finished productions keeps but about 70 per cent of the capacity employed. The coke output is again much reduced. Copper is a shade firmer at 10 1/4 cents, while tin and lead are not active and unchanged.

The demand for boots and shoes is still disappointing, several factories have closed and few are working full time, belief in lower prices still prevailing, although further reductions have been made in most lines, amounting since Jan. 1 to 6 per cent. Some makers get good orders for women's light shoes, but others scarcely any, and Boston shipments thus far are 21 per cent less than last year.

Textile work shows little change, though the cut in print cloths to 2.75 and a general concession in brown and bleached staples, averaging for the whole list quoted 6 per cent since Jan. 1, induced more buying which the known accumulation of goods ahead of demand has hindered. Many mills are reporting great profits last year from the rise in cotton but the prospects of a larger crop this year does not promise repetition of such gains. Though goods still average 12.7 per cent above their lowest point last year, cotton is now 44 per cent higher than it was then.

Sales of wool have been small for two weeks of February, 9,320,700 pounds, against 10,360,650 last year and 12,502,550 in 1893, but higher prices abroad sustained by heavy shipments of goods to this country, incline holders of wool here to make no concessions, so that manufacturers have the more difficulty in meeting competition. Many cancellations for orders of clay worsted and mixtures are reported since the reduction in prices. Clothiers who have still to carry large unsold stocks of dealers, as well as their own, defer orders.

Product markets tend downward, mainly because supplies exceed expectations. Wheat has declined 3-4 cents, with western receipts 3,022,306 bushels, against 875,199 last year, while Atlantic exports for two weeks have been only 3,639,195 bushels, against 2,721,344 last year.

Corn is a shade lower and both pork and lard a little lower.

Cotton receipts at this season never large, still indicate a supply for the current crop year, including stocks brought over, much in excess of the world's needs, so that the prospect of increased acreage has the more power to depress prices, and spot cotton has declined an eighth for the week. Exports in January were 8,653,566 less than last year, though prices were 45 per cent higher.

Failures for the week have been 321 in the United States, against 270 last year, and 67 in Canada, against 51 last year.

SILVER MEN DISAPPOINTED.

Final Vote in the House on the Senate Fr. Silver Bond Bill.

WASHINGTON, Feb. 15.—The majority against silver in the house yesterday when the final vote was taken on concurrence in the senate free coinage amendment was larger than that of Thursday in committee of the whole. Thursday the motion to concur was defeated—190 to 80—a majority of 110; yesterday it was beaten 215 to 90, a majority of 125. The vote yesterday was a record-making vote, and counting the pairs but 37 out of 356 members were unaccounted for. Perhaps a few absentees dodged, but most of them were unavoidably absent and were unable to secure pairs.

The silver men who predicted a much greater showing of strength were again disappointed. The "sound money" leaders had been disposed to concede the silver forces 100 votes. An analysis of the vote yesterday shows that 184 Republicans and 31 Democrats voted against concurrence, and 58 Democrats, 23 Republicans and 7 Populists for concurrence. The debate which preceded the vote was of an interesting character, but devoid of any sensational features.

Tragedy Due to a Love Affair.

CENTREVILLE, Ia., Feb. 15.—George Jones shot and killed his sweetheart, Leah Martin, her mother, Mrs. W. J. Martin, and then put a bullet in his own head yesterday evening. The reasons for the deed are unknown, but it is supposed the parents of the girl had objected to his attentions to their daughter. Jones was of a good family and the Martins also highly respected people. The scene in the house indicated that Jones had gone there and had a quarrel with the girl and that her mother was shot first and then the daughter.

Hardware Concern Closed.

HUTCHINSON, Kan., Feb. 15.—The Hutchinson Hardware company, one of the largest concerns of its kind in central Kansas, was closed by mortgage yesterday. Liabilities, \$21,000; assets, \$45,000.

LOUISVILLE, Feb. 15.—Edwin Brown, the well known letter carrier, who was taken to the Lakeland asylum last week, died at that place and his body was brought back here yesterday.

FINDING HIS STANDING

General Weyler Investigating His Cuban Army.

EE IS NOT SATISFIED WITH IT.

His Volunteer Force Is Not as Large as He Thinks It Ought to Be—General Maceo Has Passed Out of the Province of Pinar del Rio and Gone Eastward—Weyler's Censorship News.

HAVANA, Feb. 15.—Captain General Weyler continues his exhaustive investigation into the condition and resources of his forces in Cuba and is making some experiments of methods he intends to employ when he enters upon a campaign. A crate of carrier pigeons was sent from Havana with a detachment of troops to Rio Blanco, situated 90 miles from Havana, and they returned here in two hours, bringing news of the save arrival of the troops at their destination.

General Weyler is apparently convinced that the force of volunteers in Cuba is not as large or as effective as it can be made, and he is devoting a great deal of attention to plans for enlarging this arm of the service and employing it in active service. He seems to feel that the familiarity with the country which has been acquired by long residence here and the knowledge of the character and methods of the insurgents which goes with it will make the volunteers especially available against the peculiar methods of the enemy. He has indicated his purpose in various ways to put the volunteers into more efficient condition and to rely upon them more for the active work of the war. He proposes to mobilize the native volunteers in a very short time and dispatch them to the field.

It is learned here that Antonio Maceo, after his engagement with the Spaniards, at Cabajabas, made a characteristic counter march, going first southward of Artemisa and then eastward along the southern coast passing south of Mangas, Canas and Guira. Canas is on the line between Pinar del Rio and Havana provinces. Maceo has thus passed out of the province of Pinar del Rio and is close to the Trocha running from Havana to Batabano, if he has not already passed to the eastward. Nothing is reported of his movements from along this line, and his immediate whereabouts is the subject of interested speculation by the authorities.

General Pando has gone to Villa Clara, by way of Sagua to take command of the Second army corps, to which he has been assigned.

Word has been received here by cable that 5,400 soldiers debarked from Spain yesterday for Cuba to reinforce the army here.

FILIBUSTERING VESSEL SAILS.

No Secret About Her Departure Although She Carried Arms and Ammunition.

WILMINGTON, N. C., Feb. 15.—The steamer Commodore, the alleged filibustering vessel, which has been detained here for some time, received her clearance papers and sailed yesterday. She is supposed to have arms and ammunition for the Cuban insurgents, and her probable destination is Charleston, S. C.

The departure of the vessel was made without any effort at secrecy, but on the contrary she sailed away blowing her whistles and with other evidences of demonstration. This action is in accordance with the statements of Counsel Kerr of the Hart line of steamers, to which the commodore belonged who said that the vessels of his line would sail with arms and ammunition.

BY WAY OF MADRID.

General Weyler Sends the Same Kind of Dispatches to Spain.

MADRID, Feb. 15.—Dispatches received here from Havana say that the Spaniards under General Cornell and Colonel Hernandez have defeated the insurgents under General Antonio Maceo, north of Pinar del Rio, capital of the province of that name.

The dispatches add that the insurgents lost 24 killed, while the Spanish loss was only two killed and seven wounded, including general Cornell, who was slightly injured. It was further stated that Maximo Gomez was still in the vicinity of Havana.

Weyler Will Take the Field.

NEW YORK, Feb. 15.—A dispatch to The Herald from Havana says: It is learned unofficially that General Weyler will personally take the field very soon. Weyler's purpose is said to be to place his command between the armies of Gomez and Maceo in the neighborhood of Quivican, and force one or both to give battle immediately.

WHERE IS DR. NANSEN?

Opinions as to Whether He Has Discovered the North Pole or Not.

LONDON, Feb. 15.—A dispatch to The Times from St. Petersburg says: "No confirmation has been received of the news that Dr. Nansen has discovered the north pole and is returning to civilization. If he is returning, his own dispatches are likely to arrive before any answer is available to inquiries to such wild regions, devoid as they are of telegraph or other means of regular communication. Captain Wiggins opines that if it is true that Nansen is returning he must have abandoned his ship. This observer regards the report regarding Nansen as not impossible."

The Daily News has an interview on the subject with Clements R. Markham, president of the Royal Geographical Society.

ical society, who did not think it was impossible that Dr. Nansen had reached the pole, but that the absence of detail was strongly against the truth of the report.

PROSPECTS OF A FIGHT.

It Might Take Place Next Monday, but More Likely Not at All.

EL PASO, Tex., Feb. 15.—Late yesterday evening Quinn, the backer of Maher, telephoned from Las Cruces that Peter's eyes were 25 per cent better and that he would surely be able to be in the ring Monday.

If Maher's eyes do not recover with sufficient rapidity to enable him to get into the ring on next Monday, Fitzsimmons may decline to wait any longer. Fitzsimmons is a sorely disappointed man over the turn things are taking, and a little inclined to find fault with Maher for not taking sufficient precautions during his training. He is confident of his ability to beat Maher in two rounds or four at the outside, and the obstacles that have been placed in his way tended to discourage him somewhat.

The situation has worked down to a simple proposition of having the fight before the kinetoscope. It is practically Stuart's only chance to win out and the only hope the kinetoscope people have this side of the grave for the recovery of the \$17,000 they have already put into the scheme. The kinetoscope, of course, is the strongest thing in favor of the fight coming off, and an effort will certainly be made to get the men into the ring as soon as Maher is in any condition to fight.

The location of the fight is still the same deep impenetrable secret. Nobody knows anything about it, and only one thing is certain—it will not be in Texas. It may be four miles from El Paso, and it may be a hundred. Nobody save Stuart knows the direction of the distance.

SHIPWRECKED FISHERMEN.

But One of the Eleven Able to Tell Their Pitiful Story.

CARRABELLE, Fla., Feb. 15.—A boat containing five corpses and six men barely alive has drifted ashore on Dog island. When discovered by two fishermen the survivors were lying unconscious on the decomposed corpses of their companions. The survivors were revived and Gilbert Holmes, who was strongest, related a story of awful suffering. Last week the 11 men left Key West on a smack to fish on the west coast.

When two days out the smack was wrecked, the men escaping in a boat without food, water or clothing. Three days after the wreck Frank Mason died, and soon after Max Thornton, Alfred Stafford, Joe West and Nathan Adams succumbed. The survivors were too weak to throw their dead comrades into the sea, and the corpses remained in the boat. For the last two days Holmes was the only one of the living conscious, and he does not remember all that happened. The scene in the boat was horrible. The living and the dead, without rag of clothes, were tumbled together.

The corpses seemed to be gnawed in places, and the fishermen suggested that in desperation the survivors tried to sustain life on the flesh of their dead companions. The six survivors are Jose Rodrigues, Sam Williams, Henry Johnson, John Blackburn, Arthur Moore and Gilbert Holmes, who are being cared for on Dog island. Several of them seem to have been rendered idiotic by their sufferings.

VENEZUELAN COMMISSION.

The Physical Map of the Country in Dispute Is Almost Finished.

WASHINGTON, Feb. 15.—The Venezuelan commission was hard at work yesterday with all of the members present. The geological survey through Mr. Baker reported that the physical map of the country in dispute was almost finished. It is proposed to have this map divided into sections which will be enlarged. Upon these enlargements notes may be made, so that each member of the commission can make independent studies of the situation, from every standpoint.

The commission is highly gratified at the position taken by Great Britain in responding favorably to its request to be supplied with information relative to the location of the boundary line. They recognize that the British government has accepted the invitation in the spirit in which it was extended and they feel that the results so far as the commission is concerned will undoubtedly be much more satisfactory, having, as it will, all of the information in the possession of each part to the controversy.

If by independent inquiry the commission can become possessed of other facts, so much the better, but as it stands the response of the two parties ensures a thoroughness for the investigation that it would otherwise be difficult to impart.

NEW COMET DISCOVERED.

Perrine, One of the Astronomers at Nice, Successful With Photography.

BOSTON, Feb. 15.—A cablegram received by the science observer of this city announces the discovery of a new comet by Perrine, one of the astronomers at Nice. The following position was secured at the observatory of Kiel in Prussia: Feb. 13, 7:08, Greenwich mean time, right ascension 10 hrs., 44 min., 48 sec., declination south 2 deg., 22 min., 38 sec.

The securing of the position at Kiel seems to indicate that the comet was discovered by means of photography, a work in which Perrine is much interested. A previous comet by Perrine discovered some four months, is still to be seen in the large telescope.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSE & McCARTHY,

SATURDAY, FEBRUARY 15, 1896.

INDICATIONS—Fair, warmer weather.

NEW YORK'S REPUBLICAN LEGISLATURE has become so extravagant that the Governor called a halt.

SECRETARY CARLISLE has been asked to get the kicking "sound money" Democrats to vote for Senator Blackburn. Br'er Knott, of the Louisville Post, would have a fit if they should fall in line.

THE offer of \$600,000,000 for investment in the new bond issue shows there is lots of idle money in this big country of Uncle Sam's. What a business revival there would be if the holders of this immense sum would invest some of it in commercial enterprises? What the country needs now is to get this cash into circulation.

A Famous Orator.

Mr. Charles Allen Thomas, the famous young orator of the State, from Lexington Ky., formerly from Melbourne, Australia, delivered his fine lecture on "Wonderland and the Islands of the Pacific" at Orangeburg on the eve of the 7th. He has great magnetism and held his audience spell bound. One minute we were weeping, the next we were laughing. Mr. Thomas has wonderful descriptive power and carried his audience on a long journey through Australia, many islands of the peaceful ocean and permitted us to enter the Golden Gate. In all of this journey we saw many strange peoples, places and things. This lecture abounded in beautiful language, and many times in the speaker's flights of eloquence, we were borne away only to imagine ourselves the inhabitants of brighter climes. We are free to say that he is the best young orator in the State and no one should neglect the first opportunity of hearing him. By special request Mr. Thomas recited a selection for us. We agree with the Lexington people in saying that he is master and king of declaimers.

AUCTIONEERS' LICENSE.

The Court of Appeals Renders An Important Decision on Municipal Law.

The Court of Appeals decided an important point in municipal law in the case of McGraw against the town of Marion this week.

G. W. McGraw, a citizen of Indiana, sold goods at auction in the town of Marion without procuring license, as required by the ordinance of said town. For failure to pay the fine imposed he was placed in jail.

Suit was then brought by McGraw against the town to recover damages for alleged false imprisonment, plaintiff insisting that the ordinance under which he was fined and imprisoned was unconstitutional and void. The lower court sustained the demurser to the petition, and this appeal was prosecuted by McGraw from the judgment dismissing the petition.

The Appellate Courts in an opinion by Judge Guffy, reverses the judgment, holding the ordinance void because it discriminated against non-residents of the State in that the license is required only of persons who do not reside in the town of Marion, and the court further holds that the town or city is liable for damages done to persons by its officers in enforcing void or unconstitutional ordinances or laws.

JOHN H. GRAVES and bride, Mrs. Nanie Graves, of Oak Woods, Fleming County, were "the observed of all observers" on the street late yesterday afternoon. They were married a few days ago, and drove down yesterday to "have their pictures took," stopping at the Grand View. When they started out to hunt up Kackley & Cady's gallery, the bride was attired in her wedding dress, a costume of pure white, from hat to dainty slippers. Arm in arm they wended their way along the street, and seemed to enjoy the sensation they created. They were accompanied by Misses Midda Courtney and Lottie Stickrod and Messrs. John and Henry Cawood. The party left for home after their visit to the gallery.

SENATOR RUMMANS.

He's Cutting Quite an Important Figure Now in the Senatorial Contest.

The Legislature at its session yesterday took the twenty-second joint ballot for U. S. Senator. There was no election. Hunter received 63; Blackburn 62; scattering 9. Senator Hissem, Carpenter and Rummans again voted against Hunter.

The Republicans had given it out that they would refuse to adjourn the joint session and continue to ballot in hopes of tiring out Senator Ogilvie, who is very ill, and thus win. But the scheme was not carried out. It is said Senator Rummans had informed the Republican leaders that he would not vote with them for any such purpose. In view of this, the joint assembly was quickly adjourned.

Sixteen new bills were introduced in the House. The principal one was Ding's income tax bill. It provides a tax of 1 per cent on all incomes of individuals and corporations of more than \$2,000 annually, and 1½ per cent on incomes of more than \$20,000.

The bill to abolish the office of Register of the Lands was passed by a vote of 91 to 0.

The bill to provide against the collection of usurious interest on chattel mortgages was also passed.

The confirmation of John W. Postell, colored, as Steward of the Hopkinsville asylum, came up in the Senate. Dr. James spoke in favor of confirmation. Mr. Sims made a speech against it. Mr. Landes, in a strong speech, supported the confirmation. Mr. Bronston opposed the confirmation, saying it would be a shame to the State to confirm Postell. He insisted there was no politeness in the refusal to confirm.

The nomination of Postell was finally rejected.

A bill reducing the salary of the Attorney General to \$3,500 was passed.

In a letter to the Louisville Commercial Thursday, Walter Forrester, who was

Secretary of the Republican State Committee during the last campaign and who is now Assistant Adjutant General, says:

Speaking of the three Republicans who have refused to support Dr. Hunter any longer, it may be interesting to the public to know why these gentlemen have adopted this course. Senator Rummans said to me to-day that he was actuated solely by a sense of duty to his party and to the people who elected him. He had not voted in the caucus that nominated Dr. Hunter, but he had supported him faithfully and had hoped to see him elected. He had talked with many other members who had come to the conclusion that no one could be elected so long as the original caucus nominees were being supported by the majorities on both sides. Mr. Rummans said that, fully believing this and feeling that the Legislature owed it to the people to pass such bills as the necessities of the Commonwealth demand, he thought this could not be done unless the Senatorial struggle can be got out of the way.

And Senator Rummans thinks that there is now imminent danger that the Republicans will be unable to elect anyone unless a new candidate is brought out very soon.

Senator Hissem and Representative Carpenter did not go into the caucus that nominated Dr. Hunter, and only promised to support him for a while and to give him a chance to win. They agree with Senator Rummans that Dr. Hunter can not be elected. They are very positive in their views, and they are all conscientious and loyal Republicans. They are willing to vote for any sound-money Republican who can win, or they are willing, if an election is impossible, to lay the Senatorial question aside, and go on with the work of legislation.

Senator Rummans is one of the most influential Republicans in the Ninth Congressional district, and I know something of his services to the party and of his recent superb campaign in his own district composed of the counties of Mason and Lewis. I was present when he was nominated and there heard the grand old fighter, George Morgan Thomas, testify to Rummans' worth. Senator Rummans has long been the right-hand man of Judge Thomas, and was his chief lieutenant in '94 when Judge Thomas' son-in-law, the Hon. Sam P. Pugh, was elected to Congress.

Senator Rummans served the party magnificently in Pugh's campaign, giving his time and money freely. When he was honored by the Senatorial nomination at Maysville, Rummans called his political co-workers together and told them that he knew he could be elected, but that he wanted to give the State ticket the largest majority ever given by the district. Under his direction the Republicans made the most thorough organization ever known in that district, and brought out the full vote. The result was that, in spite of the terrible fight made by the Democratic managers and the unlimited funds supplied by the free silver people, Senator Rummans' district was carried by the State ticket by a majority larger than that given Congressman Pugh.

Base Ball Notes.

Baseball clubs are to be organized in several Kentucky towns, and there is talk of forming a State League.

Wetterer, the Shamrock's crack shortstop last season, and Fagin, catcher, want to get into league company this season. Wetterer broke his collar-bone in a game with Maysville on the 4th of July.

FIRE INSURANCE.—Duley & Baldwin.

It's Chenoweth's cough syrup you want.

E. L. BELFRY qualified as a Notary Public yesterday, with John Johnson as surety.

OVER \$300 worth of tickets have already been sold for the "Old Folks" concert next Tuesday night, for the benefit of the Washington Fire Company.

At St. Patrick's Church to-morrow masses will be celebrated as follows: 7:30, 9 and 10:30 a. m. Sunday school, vespers and benediction at the usual hour.

W. K. CARDWELL, the newly appointed Steward of the Eastern Kentucky Insane Asylum, stole a quiet march on his friends Wednesday night by slipping over to Harrodsburg and getting married. The bride was Mrs. Lulu Ellis Griffin.

THERE will be a thinning out of insurance agents in Hopkinsville as a result of an ordinance passed by the City Council, which taxes every life insurance agent or solicitor \$50 a year, says the Louisville Times. A tax of \$25 is paid on each building and loan company doing business there.

FLEMINGBURG Times-Democrat: "Our friend H. B. Bryson, of Carlisle, who was to be Deputy Insurance Commissioner under the new Republican administration at Frankfort, has compromised by accepting an appointment as Notary Public at Carlisle. And John Cox and Doc Huff are still out in the cold with no pie counter in sight."

EXCHANGE: "A horse attached to a cart recently backed over the high cliff of the river bank at Niagara Falls, and fell a distance of over 100 feet. Strange to say, the horse escaped with only a few cuts and scratches. Boards were thrown down, a temporary shelter built, and in ten days the horse was pulled up by ropes and returned to his stable."

DANVILLE Advocate: "Lee Raney, son of W. G. Raney, was compelled to miss his classes at Centre College, Monday, on account of illness. The extraordinary feature of the case is that Mr. Raney has been attending school for ten years and that Monday was the second day in all that time he was absent from his desk. This, added to John C. Eastland's Sunday school record, gives Danville the championship for punctuality in that line."

THE closest city, politically, in the United States, without any other serious rivals for the distinction, is Wilmington, Del., which was carried in the last Presidential election by Mr. Cleveland by one vote. At the last Mayoralty election in Wilmington, held in June, 1895, the two parties were so evenly divided that some of the candidates on the Democratic and some of the candidates on the Republican ticket were chosen. For the office of City Treasurer 9,100 votes were cast and the plurality of the successful Republican was nineteen votes.

A SPECIAL says that since Lebanon completed its waterworks, insurance rates have increased from 60 cents to \$2, owing to the risk, to \$1.35 to \$4 on each \$100 for the same risk. Strong grounds were put forward at a meeting of the citizens this week for forming a home stock company with a capital of \$50,000. The people are aroused and are determined to secure lower rates. It seems to have been generally understood and in fact it was an argument used to get the city to vote a tax to build water works that insurance would be at least 50 per cent. cheaper, which has proved a delusion, as rates are decidedly higher.

A Stocking Story

Founded on fact, and the kind to interest shrewd buyers. Under the heading special you will find a chapter to hold your attention. We inserted it (at our loss) to determine how many women read our advertisements. It's a sure way to make the discovery, for we know every reader will become a buyer.

TWO MORE DEATHS.

Mr. John Knoveshow, a Well-to-do Farmer, and Mrs. Sarah Mc-Keelup Pass Away.

Mr. John Knoveshow died yesterday about 9 a. m. at his home near Stone Lick, of congestion of the heart and lungs. He had been ill about ten days, and informed his family when taken sick that he would not recover.

Deceased came to Mason County from Pennsylvania some years ago. He was a man of robust build, sturdy as an oak of the forest, industrious and of the strictest integrity and was highly esteemed in the community. He was about sixty years old, and leaves a wife and eight or nine children.

Funeral to-morrow at 2 p. m. with services by Rev. M. B. Adams. Burial in Maysville Cemetery.

Mrs. Sarah McKellup, aged eighty-one years, died last night at 8 o'clock at Manchester of heart failure. She was the mother of Mr. M. E. McKellup of this city, and leaves five other children, two daughters and three sons. She was a sister of the late Herbert Wilson of Wilson Bottom, and a most estimable Christian woman. Her death was one of the most peaceful ever witnessed.

Funeral at Sand Hill Christian Church to-morrow at 2 p. m.

ENTIRE FAMILY MURDERED.

A Terrible Crime Reported From Bracken County—Victims Burned

Reports reached here late this morning that a terrible crime was committed one mile below Augusta last night.

One report is that a prominent farmer and his entire family were killed by a lot of tramps, who then burned the house to destroy all evidences of the crime.

The name of the family was not learned.

Another report states that the farmer revived sufficiently after the murderers left the scene to crawl from the burning building and escape.

Only meager reports have been received of the awful tragedy.

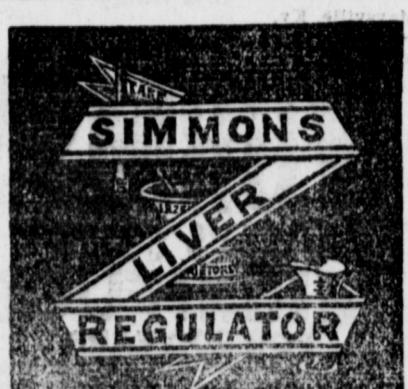

Tierney-Flanagan.

The hospitable home of Mr. and Mrs. John Flanagan near Mayslick, was the scene of pleasure and happiness Tuesday, February 11th, the occasion being the marriage of their youngest daughter, Marie, to Mr. William Tierney. The ceremony which made the happy couple one was performed at high noon by Rev. Father Hickey.

The bride was beautifully attired in a dress of brown broadcloth with jewel and velvet trimmings. Her maid of honor, Miss Katherine Tierney, wore a dress of gray with velvet and button trimmings. The groom and his best man, Mr. John Flanagan, wore the conventional black.

After receiving congratulations and best wishes from the guests, the merry party present repaired to the diningroom, where an elegant repast was served. A number of presents were received from the large circle of friends by the bride. The happy couple have the best wishes of their many friends on their journey through life.

Mr. C. B. Rigg has retired from the Mt. Olivet Tribune-Democrat and accepted a position with the Warren (O.) Daily Tribune, now edited by Mr. W. C. Deming.

ESTIN ADAMS, of Black Oak Bottom, Lewis County, has a Red Astrachan apple tree that measures 11 feet 4 inches in circumference 5 feet from the ground, and is 3 feet 9 inches in diameter. The spread of the branches before a late trimming was 70 feet. It is now 56 feet. Mr. Adams says it has produced 100 bushels at one crop. The tree rarely fails to bear a crop, and the apples have sometimes sold at five dollars per barrel.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without results everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at J. James Wood's. A FAILURE AT FLEMINGSBURG.

The Exchange Bank of David Willson & Co. Made An Assignment Friday.

The Exchange Bank, David Willson & Co., of Flemingsburg, made an assignment yesterday morning to R. K. Hart and Robert Sousey.

No schedule has yet been filed, but it is estimated that the liabilities amount to \$90,000, and that the assets are over \$175,000. It is thought the bank will more than pay out, and that no one will lose a cent by the failure.

Slow collections and a scarcity of money are given as the cause of the failure.

Mr. Willson has been in the banking business at Flemingsburg since 1857, and his bank has been one of the leading financial institutions of Fleming County for years. No one has a wider acquaintance in Fleming, no one stands higher and he was always ready to accommodate his friends in a financial way.

There was very little excitement at Flemingsburg over the failure, as the people were confident the bank would more than pay out. The two other banks in the town were amply prepared to meet all demands, and this aided in fully restoring confidence.

BATTLE WITH A BURGLAR.

The latter killed and his slayer dangerously wounded.

SAN FRANCISCO, Feb. 15.—Frank J. Miller, a butler in the employ of J. L. Franklin yesterday morning shot and killed John Anderson, a burglar, and was shot himself through the neck and dangerously wounded. When the police arrived on the scene they found Miller lying unconscious on the floor with the dead robber lying across his feet. Miller has been unconscious almost ever since, but revived for a few minutes and said that about 4 o'clock yesterday morning he got up and went out for the morning papers.

In the kitchen he was met by three men who pointed pistols at his head and forced him to surrender. Two men went upstairs to rob the house, leaving Miller guarded by the third robber. After the two men had gone a little while Miller saw a chance and grabbed for the robber's pistol. The burglar jumped back and commenced firing, while Miller endeavored to get out his own pistol. It caught on his clothing, however, and fell to the floor. Miller stooped and grabbed it and fired. The two men then grappled and fell together.

At this point Miller again became unconscious and nothing more could be learned from him. Four shots had been fired at close range from each of the pistols, but only the two took effect, one passing through the brain of the robber, and the other through Miller's neck. The two burglars who went upstairs fled when the shooting began, leaving masks and tools behind them. The dead thief was identified by the police as John Anderson, a sailor with a criminal record.

About a year ago an attempt was made by two men to rob the Franklin residence. Miller stood the burglars off and was frightfully beaten by them.

"PATSY" HARRIS HANGED.

A Negro murderer at Washington legally executed.

WASHINGTON, Feb. 15.—John, alias "Patsy" Harris, a negro murderer, was hanged in the District of Columbia jail here at 11:37 yesterday.

The crime for which John, alias Patsy Harris, paid the death penalty was committed on the afternoon of July 4 last, in that portion of Georgetown known as "Boston." Matthew Spruell, the murdered man, and Harris lived in the same house together, with their families.

The day of the murder Harris came home under the influence of liquor, and, understanding his wife to say that Spruell had refused to speak to her, immediately started out looking for trouble. He found Spruell in a barber shop and fired at him, merely, he said, to scare him. Spruell, becoming frightened, ran into the street, pursued by Harris, who fired upon him with fatal effect. There was little or no provocation for the murder, although Harris claimed on the witness stand that Spruell first made an assault upon him with a razor. Harris was 23 years of age and leaves a wife and child.

Wife Murderer Hanged.

RICHMOND, Feb. 15.—John Weatherman was hanged in Carroll county jail yesterday for the murder of his wife.

Palestine is about the size of New Jersey, but more books have been written about it.

STEAMSHIP MISSING.

Thirty-Five People Have Probably Been Drowned in Mid-Ocean.

PHILADELPHIA, Feb. 15.—It is feared in shipping circles here that the British steamship Aswanby, Captain Cameron, from Hamburg, Jan. 14, for Philadelphia, with a crew of 35 men and 4,300 tons of beat sugar, valued at upward of \$300,000, has foundered at sea, as nothing has been heard from her since Jan. 19, when she passed Dunnet Head, having taken the northern route through what is known as the Pentland Firth, one of the most dangerous localities known to navigators.

The missing vessel has on board the largest cargo of beat sugar ever shipped here in one vessel, and it is consigned to the Spreckels Sugar Refining company, who have it fully covered by insurance. In addition to this there are about 150 tons of general cargo. Should the vessel have foundered at sea, the loss will foot up to upward of \$500,000.

Ohio Boy Arrested in St. Louis.

ST. LOUIS, Feb. 15.—A boy, evidently well educated and the son of respectable and well-to-do people, was arrested in a negro tenement house, in which there was a large quantity of stolen dry goods, which he confessed to have taken from a store Thursday night. A 19-year-old confederate escaped. The youth, who gave his name as William Schargin and his age 17 years, said he came from Toledo, where his family live, five months ago. The plunder, which is valued at \$500, was taken from E. Haggard's dry goods store. When leaving masks and tools behind them, the dead thief was identified by the police as John Anderson, a sailor with a criminal record.

At this point Miller again became unconscious and nothing more could be learned from him. Four shots had been fired at close range from each of the pistols, but only the two took effect, one passing through the brain of the robber, and the other through Miller's neck. The two burglars who went upstairs fled when the shooting began, leaving masks and tools behind them. The dead thief was identified by the police as John Anderson, a sailor with a criminal record.

Compelled to Assign.

YORK, Pa., Feb. 15.—A receiver has been appointed for the Baltimore Condensed Milk company and the York Canning company, one concern, at the instance of the Fort Stanwix National bank of New York. The liabilities are said to be \$102,000 and assets \$20,000. Cashier Barnard of the Fort Stanwix bank, who defaulted for \$400,000 and committed suicide, held \$102,000 worth of the stock.

Judge Alexander Davis Dead.

ST. LOUIS, Feb. 15.—Judge Alexander Davis breathed his last at the Baptist sanitarium yesterday surrounded by members of his family and friends. He was 64 years old. Judge Davis was the jurist whose name was immortalized by Mark Twain in "Roughing It." The judge was then living in Virginia City, Mont., where he presided over the people's court.

LOUISVILLE, Feb. 15.—It is reported that Bartley, Johnson & Company's defalcation may amount to \$1,000,000. It is now said that in addition to the duplicate warehouse receipts there is considerable forged paper out, and that the banks alone know the extent of the crookedness. It is also said that every one connected with the firm has claims against the estate.

Was It Belle Gilbert?

MIDDLESBORO, Ky., Feb. 15.—Belle Gilbert, a domestic in the family of Clinton Dewitt, has been missing since last Friday a week ago, and it is supposed that she is the woman floater seen in the canal last Sunday. As to whether she was murdered or fell in is not yet known. The body has not yet been recovered.
